1. Introduction

The Click and Collect module allows customers to reserve items through the website and to then collect them from their local store. The benefit for the customer is to avoid delivery charges as well as being able to collect items throughout the day.

This is an extremely useful and powerful tool that allows customers to purchase / reserve items online and then to collect from store.

Approximately 40% of shoppers used a Click and Collect service over the Christmas 2016 period.

2. Customer Facing
